

## Agreements made by IRADe with following organizations in last 6 months:

### **INTERNATIONAL AGREEMENTS:**

#### **1. Establishing Inter Ministerial Linkages to address energy accessibility to poor women in rural and urban areas**

ENERGIA, the international network on gender and sustainable energy has selected IRADe as one of the National Focal Point for Asia Regional Network. The objective of above project is (1) To advocate for availability of fuels within one km distance of all habitations in the 11th Plan (2007-2011) among ministries and government organizations.(2) Capacity building and awareness creation activities on gender-energy –poverty issues from the grassroots level to the highest level of people.

#### **2. Indian Perspectives on Global Energies Scenarios till 2050**

International Institute for Applied Systems Analysis (IIASA), Laxenburg Austria has participated as a collaborator with IRADe in the project "Indian Perspectives on Global Energy Scenarios till 2050", sponsored by Technology Information, Forecasting and Assessment Council (TIFAC), New Delhi. The project aims to understand energy transitions needed in the future that is consistent with global perceptions and R&D. It would also include studying existing IIASA global regional energy scenarios from India's perspectives and suggest new scenarios suitable for India and reflect India's viewpoints.

#### **3. Asian Cities Climate Change Resilience Network**

Institute for Social and Environmental Transition (ISET) is the lead facilitation partner working with IRADe to support in developing climate resilience strategies in cities like Gorakhpur, Surat and Indore under the project - Asian Cities Climate Change Resilience Network(ACCRN) sponsored by Rockefeller.

#### **4. Renewable Energy Component of the Indo-German Energy Programme**

GTZ (German technical Corporation), an international cooperation enterprise for sustainable development sponsored an inception study on Renewable Energy Component of the Indo-German Energy Programme. The objectives of the inception study are to support the project preparation by providing the inputs integrated with an overview and assessment of the National and state policies to promote renewable energies, rural electrification and relevant issues in rural development and identified the relevant institutions and stakeholders of the programmes.

## **NATIONAL AGREEMENTS:**

### **5. Renewable Facility Development at Raj Bhawan, Manipur**

Ministry of New and Renewable Energy of Government of India sponsored Preparation of Detailed Project Report (DPR) under Special Area Demonstration Scheme. IRADe has undertaken the project for preparation of (DPR) of Raj Bhawan complex at Imphal, Assam. The project aims to demonstrate use of renewable energy option in illuminating and supplementing the energy requirement at places of national pride and of international importance to meet the energy need and also create awareness towards renewable among the masses.

### **6. Preparation of Master Plan of Jodhpur city under solar cities development programme**

Ministry of New and Renewable Energy of Government of India has introduced a scheme for solar cities development programme. IRADe has undertaken the preparation of master plan of Jodhpur city, Rajasthan. The study aims to prepare detailed action plan , road map for various activities for the year 2009-10, 2010-11 and 2011-12 during 11<sup>th</sup> plan period for development of jodhpur city as a solar city as per the specifications, guidelines and terms and conditions of MNRE.
